

Welcome to  
Vancouver

# Why CET?

**1 Personal Care**  
Unlike many schools in Vancouver CET does not have hundreds of students. Our school focuses on students with the greatest possible care.

**2 Expand and Explore Programs**  
If you want to know Canadians you can choose from hundreds of activities (eg, photography, sports, cooking, etc..) Learn a new skill and practice English with local people who share the same interests.

**3 Well balanced and integrated Cambridge curriculum**  
Our General English courses are based on the Cambridge program, and you always have options based on language skills and areas in which you want to work.

**4 Invest in to you Future**  
Learning is an investment in your fututo. Let us help you reach your potential and give you a competitive advantage in English.

IN THE HEART OF  
YALETOWN

## Yaletown district

Much like the 'Docks' area in London or the Waterfront neighborhood in Boston, Yaletown has undergone a dramatic transformation over the years. Once the city's warehouse district, Yaletown is today a "trendy" place to live, work, and do business.

## Campus

- Our new facilities are bright, open, well-designed.
- 100 meters from Yaletown Skytrain Station and 10 meters from the bus station.
- Computers with free access to students and high-speed wireless internet.
- Close to many restaurants, cafes, shops, the beautiful Bay, and Stanley Park.

## Afternoon Electives

We all learn differently. We have strengths and weaknesses in different areas. Elective courses allow you to practice your English in the areas you most want to focus. Choose courses based on your interests and needs.

- Preparation for the workplace,
- Write-academic and professional
- English for the hotel industry,
- Listening-intensive
- Vocabulary, etc..

## Cambridge Business English (BEC)

The world competitiveness of the Business - How important is it? We live in a global village, why Vancouver is pleased CET to equip students with skills in business competition in international English. The modules cover topics such as products, interviews, presentations, advertising, market expertise and business.

# Programs
